### Product Description

We are killing our planet. But there is still hope. Branwen Lewis, the greatest scientist of our time, researching the technology to save the environment, her enemies at her heels. Gwydion Coleman, a man with powers our time does not accept, and a past we don't believe in. We know him as Merlin. Her mission is to protect our world. His mission is to protect her. A great legend from our distant past meets a legend of our future. Together they are unbeatable. But at what cost?

### Recensioner

BB: ...Jag har just läst ut den första boken i Rhuddem Gwelins serie om Merlin, "Protecting Cheesyfee", och är helt uppslukad. Ville inte gå av pendeltåget eller sluta läsa när jag kom till cykeln! Så bra och välskriven; spännande handling, intressanta karaktärer och massor med intressanta historiska kopplingar. Rekommenderas varmt! (P.S. Volume 4 är "första delen".) TC: ...spännande...humoristisk...riktigt trevlig läsning...speciellt för dem som är intresserad av Arturmyten, Shakespeare och London JS: I love a book that starts with the main character running from her pursuers and then manages to keep that tempo through the book. I'm not going to ruin the story by revealing the surprising twists in the plot. It doesn't matter if you are a Merlin fan or not, I wasn't before I read this book, the book is still a great stand-alone story. I love that it starts with volume 4. But what is Cheesyfee? Read the book and find out!
